Shareholder Proposal on Establishing a Public Policy Committee

Resolved: shareholders recommend that NetApp, Inc. (the Company) establish a Public Policy Committee to assist the Board of Directors in overseeing the Company's policies and practice that relate to public policy including human rights, corporate social responsibility, vendor chain management, charitable giving, political activities and expenditures, government relations activities, international relations, and other public issues that may affect the Company's operations, performance or reputation, and shareholders' value.

Supporting Statement

The Company currently has four committees: Corporate Governance and Nominating Committee mainly to "assist with director nominations" (2013 Notice of Annual Meeting p.12), Compensation Committee, Audit Committee, and Strategy Committee which "assists the Board in fulfilling its responsibilities relating to the development, articulation, and execution of the Company's long-term strategic plan, and the review, evaluation, and approval of certain strategic transactions" (2013 Notice of Annual Meeting p.14). There is no committee to deal with the increasingly complicated public policy issues. For example, in the dynamic Pacific Asia region where the Company has heavy business, the Japanese government has utilized the Tiananmen Tragedy of China in 1989 to abandon its own peace constitution, which is the cornerstone of Asia's peace after WWII, towards rearmament, militarization and fascism to mislead the U.S. under the U.S.-Japan Security Treaties to crash with the rising power of a nationalistic China. Although the Japanese government signed the G-7 Summit declaration in 1989 to protect Chinese students, I, as a graduate student in Osaka University organizing Chinese democratic and human rights activities in Japan, was persecuted because I refused to collaborate with the Japanese government to betray my fellow Chinese students (refer to Japan's second largest newspaper Asahi's interviews with me on February 10, 1990, October 20, 1992 and June 8, 2009, and my article "The Betrayal of Democracy: Tiananmen's Shadow over Japan," Historia Actual Online. ISSN 1696-2060. 2004. Issue 4 Volume 2). On the other hand, the public is concerned of recent media coverage of many U.S. companies bribing Chinese high officials to obtain business deals in China. Without a public policy committee, it is very difficult for the Company to legitimately and ethically deal with today's complicated international affairs affecting our business. For this reason, and partly to respond to my proposal, Microsoft established such a committee in 2012. Let's follow the industrial leader to establish a Public Policy Committee too.
